### ❖ Background

This Virtual Business Session (VBS) presents a platform for Jordanian and German companies to exchange information about the economic situation in Jordan by considering the country’s opportunities and challenges, for ex. regarding COVID-19 pandemic.

**In this context, the “Nearshoring” initiative of German companies considering the diversification of delivery and value chains shall be considered a focal topic during the discussion.** B2B-meetings in individual online-meeting-rooms between participating companies will strengthen the mutual understanding and contribute to develop and launch business initiatives while fostering the German - Jordanian economic relations.

Until we will meet again in person, AHK Egypt offers the possibility to stay connected through Virtual Business Sessions – VBS. The launch of this event will be followed by additional sessions that will offer German and Jordanian companies to share their offers, demands and needs.

German and Jordanian companies will be provided with the possibility to request B2B appointments separately through the AHK Egypt or any of its cooperation partners. This request can be made by e-mail to [nour.huneinih@ahk-mena.com](mailto:nour.huneinih@ahk-mena.com) with a brief explanation of your interest and the desired industry, sector and branch of business contact. **Note:** *The free of charge B2B option will only be offered for companies who participate in the Virtual Business Session – (VBS).*
