Program: 23rd Arab-German Business Forum

The Arab world is and remains an attractive location for business opportunities and investments for the German economy. With more than 400 million inhabitants, half of which are under the age of 25, it is necessary that the Arab countries not only invest in large industry and infrastructure projects, but also in future-proof technologies and knowledge-based economies.

German companies and institutions have been long-term business partners and are well known for their high-quality services. They offer a huge variety of opportunities for cooperation and are not only able to provide high-quality goods, but also state of the art know-how.

In recent years, numerous examples of true partnerships and fruitful cooperation between Germany and the Arab world have emerged. In the light of the advancing globalization, these collaborations are a strong foundation for sustainable development.

To further strengthen and enlarge such partnerships, the Ghorfa Arab-German Chamber of Commerce and Industry, together with high-profile partners, will host the 23rd Arab-German Business Forum from June 17th-19th, 2020 at the Ritz Carlton Berlin.

As in the past, the forum will provide a unique stage to initiate promising business perspectives and intensify existing economic ties between Germany and the Arab world. For further information, please have a look at the program or visit the conference website www.business.ghorfa.de

We are looking forward to welcoming you to the 23rd Arab-German Business Forum in Berlin.
