

Agenda

Time	Session	Speaker / content
09:00–09:30	Registration and coffee	
09:30–09:45	Opening and welcome	
09:45–10:15	Introduction to RBH Jordan	What RBH is, the international network, the services it will offer, the website and self-assessment tool, and how a company becomes involved. Announcement of the HREDD in Action pilot and of forthcoming activities.
10:15–10:45	Occupational safety and health in export supply chains	Why OSH is the first thing a buyer audit examines and the fastest area to improve; what ISO 45001 does and does not cover; sector hazards in chemicals and metals; worker consultation and incident reporting as evidence; what good looks like to a European customer
10:45–11:00	Coffee break	
11:00–11:30	CBAM	Where CBAM now stands in the definitive regime; what is actually required and by whom; the 50-tonne threshold; the 2027 deadlines; how to produce installation-level data buyers can use; and how CBAM connects to the wider due diligence requirements arriving behind it.
11:30–11:55	HREDD	The six-step OECD process in plain terms; the nine elements RBH assesses; what the two pilot companies are doing over the next month; what a company can start on Next day morning without budget.
11:55–12:25	Open discussion and company clinic	Participants raise the requirements they are actually receiving from customers; the panel responds. This is the session that generates the service pipeline
12:25–12:30	Closing and next steps	How to register interest, what happens next, and the forthcoming consultant training.
